Full Stack Developer | Senior React and Backend Technologies Expert

*Full Stack Developer with over 4 years of experience building web applications, specializing in **PHP (Laravel)**, **JavaScript (Node.js and React)**, and **SQL/NoSQL** databases. Skilled in leading challenging projects and mentoring development teams in Agile environments. Passionate about creating efficient and scalable technology solutions that drive business impact.*

Professional Experience

Full Stack Developer

Freelancer

Bogota

August 2020 - Present

- Developed web applications using **PHP (Laravel)** and **Node.js** for the backend, ensuring scalable and secure architecture.
- Built advanced user interfaces with **React.js**, **HTML5**, **CSS3**, and **Tailwind CSS**, optimizing user experience and performance.
- Implemented **RESTful APIs** to enable seamless integration between the frontend and backend, using databases like **PostgreSQL** and **MySQL**.
- **Mentored** and led middle and junior developers, promoting best practices and optimizing development efficiency.
- Collaborated with multidisciplinary teams to design, develop, and deploy innovative solutions from concept to implementation.

Lead Frontend Developer & Mentor

Kambcode

Remote

January 2019 – July 2020

- Led the design and development of user interfaces with **React.js** and **JavaScript**, delivering scalable solutions for large-scale projects.
- Conducted code reviews and mentoring sessions, helping students and developers enhance their performance and mastery of technologies like **HTML5**, **CSS3**, and **JavaScript**.
- Worked with **PostgreSQL** to ensure efficient and secure data management across all applications.

Featured Projects

Insurance Management System

- Developed a comprehensive insurance management platform using **PHP (Laravel)** and **React.js**.
- Built and integrated RESTful APIs to facilitate communication between the system's frontend and backend, ensuring real-time data synchronization.
- Implemented secure, scalable data storage solutions using **MySQL**, optimizing query performance and database efficiency.
- Collaborated closely with stakeholders to ensure the platform met business needs, resulting in a significant improvement in the speed and accuracy of insurance processing.

Music Library Platform

- Developed a robust API for managing a music library using Node.js and PostgreSQL, enabling efficient storage and retrieval of large volumes of data.
- Built a modern and responsive user interface with React.js, seamlessly interacting with the API to provide an optimal user experience.

Education

KAMBCODE

Software Development | JavaScript Full Stack

Colombia

February 2019- August 2019

- Intensive 6-month program focused on Full Stack development with JavaScript, including React, Node.js, and database management with PostgreSQL.
- Hands-on training in the development of RESTful APIs and optimization of relational databases.

Technical Skills

- **Frontend:** React.js, HTML5, CSS3, JavaScript (ES6/ES7), Vue.js
- **Backend:** PHP (Laravel), Node.js, Express
- **Databases:** PostgreSQL, MySQL, MongoDB
- **Tools:** Git, GitHub, REST APIs, Agile Development
- **Languages:** Spanish (native), English (intermediate, capable of communicating technical concepts)

Languages

- Spanish: Native
- English: Intermediate (able to communicate and explain technical concepts)
